

Sameul Islam

Frontend Developer

Dhaka, Bangladesh sameulislam479@gmail.com [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend Developer focused on creating responsive, accessible, and high-performance web interfaces that turn design into pixel-perfect, engaging user experiences. I add business value through clean, scalable code and UI driven by performance. I am also expanding my backend knowledge to support complete product development.

TECHNICAL SKILLS

Frontend: HTML5 CSS3 & JavaScript (ES6), TypeScript, Tailwind CSS, React.js, Next.js, Redux Toolkitt

Backend(Basic): Node.js, Express.js, REST APIs

Database(Basic): MongoDB

Tools & DevOps: Git, GitHub, VS Code, Vercel, Netlify, Firebase, Chrome DevTools

PROJECT EXPERIENCE

Project One — Footwear Commerce (React.js, Redux Toolkit)

- Built a full-scale, responsive e-commerce frontend with product listings, filtering, cart, and checkout flows.
- Architected centralized product state using Redux Toolkit, enabling scalable and backend-ready data flow.
- Developed dynamic product pages, search, routing, and recommendations with clean UI and performance focus.

[Live](#) | [Code](#)

Project Two — Mini Apps Hub (Next.js, TypeScript)

- Engineered a unified platform hosting multiple mini apps (Todo, Notes, Calculator) with a seamless user experience.
- Crafted reusable, scalable architecture for easy expansion of the hub.
- Integrated Firebase-powered public chat for real-time interaction and full-stack exposure.

[Live](#) | [Code](#)

Project Three — Rolax Resort (React.js, Tailwind, Framer Motion)

- Developed a responsive hotel booking frontend with rooms, restaurant, blog, and contact sections.
- Implemented booking pages, gallery pop-ups, and smooth animations for enhanced UX.
- Designed scalable architecture with modern UI components, ready for backend integration.
